

SS-21

Semi-Automatic Shomai Forming Machine

- Placing each dough sheet enables the machine to work consecutively.
- The operation is easy and user-friendly. Either square or round shape of a dough sheet is available.
- Any size can be changed by replacing optional parts. The portions that touch the surface of a dough sheet are always kept clean, because they are easy to be dismantled and washable.
- The minimum adjustment of ingredients is also easy and simple.
- The maintenance and inspection needs no special work because of its compact body configuration.
